"The praise I would like to give your 'Golden Medical Discovery' I cannot utter in words or describe with pen," writes James B. Ambrose, Ega., of 1005 Miffill Street, Huntingdon, Pa. "I was taken down with what our physicians said was indigestion. I doctored with the best around here and found no relief. I wrote to you and you sent me a question blank to fill out and I did so and you then advised me to use Dr. Plerce's Golden Medical Discovery. KING EDWARD SEVENTH. Edward VII, King of Great Britain and Ireland, Emperor of India, K G. K. T. K. P., a Field Marshai in the English and German armies, a colonel many times over, and a lot of other things besides, has been popular in his own country for a number of years past. At one time the contrary was the case. It was known that he was not an ideal family man. But as he gradually ap-proached the age of sixty people began to real z; that he was settling down. His early indiscretions were condoned. and as he always appeared in public with the the Princess of Wales it was realized that the proprieties were observed, at least in a formal way. Per haps it was felt that the Prince of Wales had only followed precedent in "living his own life." Be that as it msy, his unfailing good humor, his love of sport of all sorts, his wonderful memory for faces and names, his friend him for Gladetone his willingness to ship for Gladstone, his willingness to perform the ornamen'al public func-tions which the Queen was unable to attend to, his felicitous speeches, whether he wrote them himself or not, gradually resulted in a change of public opinion, and recently he has been as pepular in London as he had been in Paris. The court under his rule will aris. The court under his rule will

After leaving the university he visited Canada and this country. He made an excellent impression in the United states. The Prince renounced the right of succession to the Duchy of Saxe-Coburg-Gotha in favor of his younger brother, Prince Albert, Duke of Edin burgh, who died last year, and afterward succeeded to that throne.

The last Edward who occupied the throne was Edward VI, son of Henry VIII and Jane Seymour, born in 1537, died in 1553, compiler of the first Episcopal prayer book, the central figure of a succession of storms and tragedies, the b-throthed huband of Mary Queen of Scots. It is a curious concidence that the last former Edward was closely followed by a woman—Elizabeth, one of the greatest of English sovereigns—who reigned forty-four years, while this who reigned forty four years, while this Edward, after 347 years, follows a woman greates: of all English sover-

igns and with the longest reign of all.

The next beir after Albert Edward will be his son, the present Duke of York, who will be King George V. If he comes to the throne, and will be fol-lowed by his eldest son, great-grand son of Victoria, another Edward-Ed-ward Albert of York, now a small boy.

KING EDWARD AS A MASON .-- Edward VII, King of England, is the most prominent living Freemsson, not only by the fact that he is King of England, but because he is grand master of the grand lodges of England, Ireland, Scotand and Wales, and is also grand prior of the order of Knights Templar in England and grand patron of the An-cient Accepted Scottish Rite of Free-macoury in the United Kingdon, havmasonry in the United Kingdon, having received the thirty-bird and last degree in that branch of Freemasonry. Like his grandfather, the Duke of Kent, his Royal Highness was admitted into the iraternity under a foreign constitution. He was initiated into the mysteries of Freemasonry by his Majesty the King of Sweden while on a visit to Stockholm, in December, 1868. In September, 1869, the Grand Longe of England conferred upon him the rank of land conterred upon him the rank of past grand master, and in December of the same year he became grand master, being invested with the insignia of his Masonic rank by the grand master, the Earl of Zstland, at a grand
